

RIOTS

In Tokio Because of Peace Terms
and the Japanese Govern-
ment May be Over-
thrown

WAR STILL GOES ON

AND RUSSIANS WERE DEFEATED
IN A SHARPE ENGAGEMENT
ON FRIDAY—ENVOYS
WELCOMED IN NEW
YORK.

Tokio, September 6.—Rioting broke out here last night (Tuesday) in connection with the dissatisfaction over the peace settlement. There were several clashes with the police and it is estimated two were killed and 500 wounded. The rioting ceased at midnight. Police stations were the only property destroyed.

GENERAL DISSATISFACTION.

Tokio, Sept. 6.—(Delayed)—Under a vigorous defense by the conservative journals, supporting the government and fuller and better appreciation of the situation confronting the country, the public sentiment is showing some evidence of re-action. Argument that it is impossible for Japan to continue the bloody war merely for the purpose of securing indemnity is proving effective in allaying the dissatisfaction. It is believed that when the government is free to explain fully the conditions of the settlement and logic appertaining to them, reaction of sentiment will be large increase.

The entire nation is keenly disappointed at the outcome. No where throughout the empire has there been a step taken toward the celebration of the conclusion of peace. Radicals continue their campaign against the government, demanding punishment of those responsible for the compromise. The forthcoming diet is certain to be turbulent, and it is predicted that the Katsura government will be forced from office.

ANOTHER BATTLE.

Tokio, Sept. 6.—(Delayed)—An official report says:

"The Japanese army attacked Russians at Chongyungang on September 4. The Russian forces consisted of four battalions, six guns, several hundred cavalry. The district was mountainous and difficult, but finally the Japanese artillery successfully attacked the Russian left and occupied their position at nine in the morning. The Russians strongly resisted the west of Chongyungang but were forced to retire at 11. Another Japanese detachment attacked the Russians at Hean Jenkokai, and pursued them. The Japanese casualties were one officer killed, five officers and sixty men wounded. Russians left forty dead on the field."

GREET THE ENVOYS.

New York, Sept. 6.—Thousands of persons greeted the Russian peace envoys when they arrived at the Grand Central station this afternoon at 5:35.

There was a great demonstration when they left the train and hurried to the Stregis hotel, where they will remain while in this city. Witte, accompanied by Rosen, walked from the train to the carriage, and it was only through great efforts on the part of the police and secret service men that the passageway was cleared. Both envoys smiled and doffed their hats continually at cheers of the crowds. The crowd became so great that the party was brought to a standstill, and everyone wanted to shake hands with the two men. Both grasped many hands as they slowly made their way to the sidewalk.

JAPANESE IN NEW YORK.

New York, September 6.—The Japanese envoys arrived from Boston to night. Baron Kaneko, Japan's confidential representative here, with his secretaries and two score Japanese students, was at the station to greet the envoys. Another great crowd was on hand to cheer the returning plenipotentiaries and secret service men, city detectives and a heavy guard of police had to make a way for the Japanese party.

THE WAY"

Paducah Ky. Sept. 6.—"I don't think it should be that much," said Mrs. Mary Brockwell, when asked by Judge William Reed if she had any reason why she should not be sentenced to life imprisonment for the murder of her three babies.

Crowe escaped, but the officers are hunting him. The fight occurred in a saloon where Crowe and his companion were discovered by Jackson.

For several weeks a number of police have been searching for Crowe who was known to be in the city. Jackson saw a man he believed to be Crowe and a companion in a saloon and sending another officer to summon help, followed the men as they left the saloon. Seeing they were being followed, the two emptied their revolvers at Jackson, one bullet breaking his leg. Other officers who arrived started in pursuit, sending a shower of bullets after the fugitives. The latter, however, escaped, and up to midnight had not been apprehended.

SEWER

Question Finally Decided Upon
at Enthusiastic Meeting
of Citizens Last
Night

LOCAL PLAN ADOPTED

AND BOARD OF IMPROVEMENT
WILL RECOMMEND THE COM-
MERCIAL AVENUE SEWER
WITH TENTH STREET
OUTLET

The sewer question which has so long been before the public and which is the key note of the many improvements planned for Cairo was finally decided upon last night at a meeting of the members of the Committee of Twenty and the Local Board of Improvement. At the next regular meeting of the city council, the board will recommend that the city adopt the plan for the Commercial avenue sewer, as made by local Engineers Thistlewood and Dewey.

This plan is for an outlet sewer on Commercial avenue from Thirty-eighth street to Tenth street and from Second street to Tenth street, with the outlet at Tenth, below the low water mark.

The sewer will be so constructed that all the cross street laterals will connect with the Commercial avenue sewer and thus form a perfect sanitary and surface sewerage system. The estimated cost will be about \$65,000.

There are two plans for raising revenue with which to pay for the new sewer but it has not been decided which is the best. At any rate the payments will be divided into a period of twenty years. The legal phase of the matter will be decided upon and a report made at the meeting which has been called for a week from last night by the attorneys of the Greater Cairo Association.

The meeting last night was well attended and was a very enthusiastic and earnest one. It was the unanimous opinion of all present that the matter should be settled.

There were two plans, one from the local engineers which calls for what is known as the combined sewerage system, entailing an expenditure of about \$65,000 and the plan submitted by Mr. Phillips, the St. Louis sanitary engineer, which calls for a sanitary system with another separate sewerage system for drainage and surface water, entailing a cost of about \$85,000.

The plans were fully discussed and it was finally decided to accept the former plan, as it is thought that the results obtained from this will be almost, if not altogether equal to the lovable system.

The meeting was presided over by Mr. John S. Aisthorpe, chairman of the Committee of Twenty. The meeting adjourned until next Wednesday night, when the details of the improvement will be made and plans for other improvements taken up.

He insisted on these men being removed, and announced that he would file a charge against Mr. Granger. He called a special meeting of the board and congregation today, but the board refused to meet. Fifty members condemned the action of the board because it did not consult the congregation. The trouble is likely to result in a split in the church membership.

THE RING

Need Not be Returned by the Girl
Who Breaks an Engagement

Indianapolis, Ind., Sept. 6.—W. C. Smock, an Indianapolis justice, delivered an opinion this afternoon that a girl who has broken her engagement to marry need not return the engagement ring unless there was a specific contract that she should give it up on failure to marry.

This decision was in the romantic case of Michael Welsh, who, divorced from his wife, wooed her anew and gave her a new diamond engagement ring. She refused to remarry and he sued for the ring. She said she was not re-engaged.

Justice Smock said it didn't make any difference whether she was or not, as the ring was hers if there was no prior agreement to return it.
